

# MARLON JON BOATS

RECREATIONAL PRODUCTS LTD.

**SUPERWIDE • STABLE • SUBSTANTIAL CARRYING CAPACITY • LIGHT • ECONOMICAL TO USE**

## They say a “Picture is worth a thousand words”

Well here are a few words to go with the pictures that show why Marlon’s Jons are more stable, substantially more carrying capacity, and are economical to use as they need less hp to get on plane due to their bottom width.

	Marlon SP10	Competitors	Marlon Benefit
<b>Max. Perons</b>	3	2	1 more person
<b>Max. Weight Capacity</b>	434 lbs.	180 lbs.	254 lbs. more
<b>Bottom Width</b>	49”	32”	17” more than 1.5 times wider
<b>Beam</b>	55”	48”	7” wider
<b>Side Depth</b>	17”	16”	1” deeper
<b>Ribs</b>	5	2	3 more ribs for strength
<b>HP Rating</b>	5hp	3hp	2 more horses
<b>Approx. Hull Weight</b>	87 lbs.	80 lbs.	7 more lbs. you know why

Note: Marlon Ratings are from Transport Canada, Competitors are from US Coast Guard which tend to rate boats for more capacity and hp than Transport Canada. Competitor’s boat did not have a Transport Canada decal in it.
